PRESS RELEASE

WetStone Releases Gargoyle Version 3.2.2

Ithaca, NY May 4, 2009:

WetStone today announced the release of Gargoyle Investigator™ Forensic Pro Version 3.2.2 Over 9 months in development, this new version adds high performance capabilities that investigators demand when performing malware discovery on large file systems.

"Once again our team has responded to direct end users requests for higher performance, direct integration with the latest EnCase forensic software, the ability to manage multiple cases, direct identification of programs that support Steganographic file systems and native support for Windows Vista™" stated Chet Hosmer Sr. Vice President and Chief Scientist at WetStone. "In addition, our team has established a customer support portal that allows our Gargoyle Forensic Pro customers to obtain both program and dataset updates on demand."

Current customers who would like to upgrade to this version will receive an email with a user name and password to the Customer Support Portal. New customers can order directly from our website www.wetstonetech.com or contact sales at 607-266-8086 x2.

WetStone Technologies, Inc.: is a global provider of innovative cyber security solutions.
