PRESS RELEASE

WetStone Technologies Releases Gargoyle Investigator™ Version 4.0

Continuing technological advancements.

Ithaca, NY and Gaithersburg, MD October 25, 2010: WetStone today announced the release of Gargoyle Investigator™ Forensic Pro Version 4.0 at the Techno Forensic Conference. Over 10 months in development, this new version adds vast improvements in the speed and accuracy for investigations on large file systems.

"As we continue to advance and respond to our customer's requests, Gargoyle Investigator continues to get better every day," Stated Chet Hosmer, Senior Vice President and Chief Scientist, WetStone Technologies. "We are always receptive to market demand, and look forward to the development of future releases and encourage our customers to continue to provide feedback ." Notes Chet Hosmer.

Current customers who would like to upgrade to this version can visit the Customer Support Portal to download the update. New customers can order directly by contacting our sales department at 571.340.3463.

WetStone Technologies is a global provider of innovative cyber security solutions. Since 1997 WetStone has continued to equip their customers with the research, technologies, trainings, and services that are needed to defend against today's cyber criminals.
