Ithaca, NY, May 8, 2008 – LiveDiscover™ Forensic Edition (FE) received a 5 Star rating from SC Magazine's forensic group test. Results are available in the May issue of SC Magazine (www.scmagazine.com).

WetStone's LiveDiscover FE is the premier tools for rapid full distributed network assessment, which is the critical first step in any digital investigation. This product received an overall five star rating with compliments to the product features, documentation, performance, support and value for the money.

LiveDiscover FE can be used with Gargoyle Investigator™ Enterprise Module and LiveWire Investigator™ to quickly identify the size of your network, rule out vulnerabilities and identify potential targets for a more in-depth investigation and ultimately, saving investigation time and resources.

"We just recently launched the forensic edition and are happy to see it receive such a high rating in all categories. This tool was designed specifically based on our valuable customer feedback and we see great potential for this application in the market," stated Kelly Skinner, Director of Marketing for WetStone Technologies, Inc.

If you are interested in obtaining more information about LiveDiscover FE please visit us at www.wetstonetech.com. We run product demonstrations weekly and you can sign up to attend our next session online.

About SC Magazine - SC Magazine provides IT security professionals with in-depth and unbiased information through timely news, comprehensive analysis, cutting-edge features, contributions from thought leaders and the best, most extensive collection of product reviews in the business.
