

Discover the Hidden™

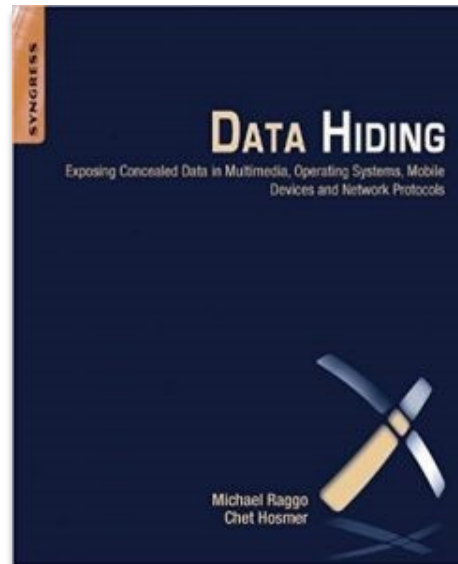

Discover the Hidden™ is WetStone Technologies' most affordable steganography investigative solution. Discover the Hidden is a software tool that provides investigators with the ability to conduct a quick search on a computer for known Encryption and Steganography programs. Discover the Hidden is intended to be a quick and easy scan; requiring a minimal amount of technical knowledge.

Discover the Hidden utilizes a combination of program traits, Fibonacci and MD5 hashes to discover and confirm the existence of advanced data hiding programs effectively.

WHAT'S INCLUDED?

- **Data Hiding book:**
Each license of Discover the Hidden software comes with Chet Hosmer and Mike Raggio's book Data Hiding. This book provides an Exploration Into the present and next generation of techniques and tools used in covert communications, advanced malware methods and data concealment tactics. The hiding techniques outlined include mobile devices, virtualization, multimedia and others. These concepts provide corporate, government and military personnel with the knowledge to investigate and defend against threats, spy techniques, espionage, advanced malware and secret communications.

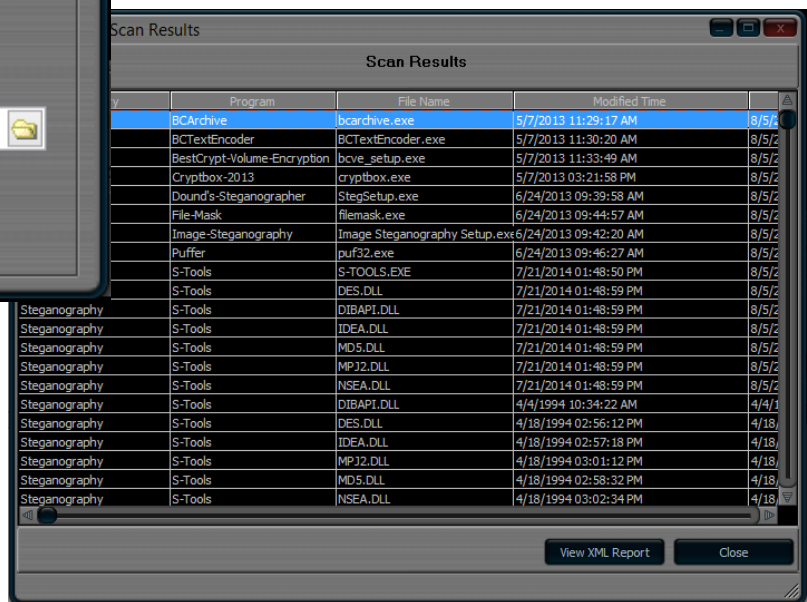

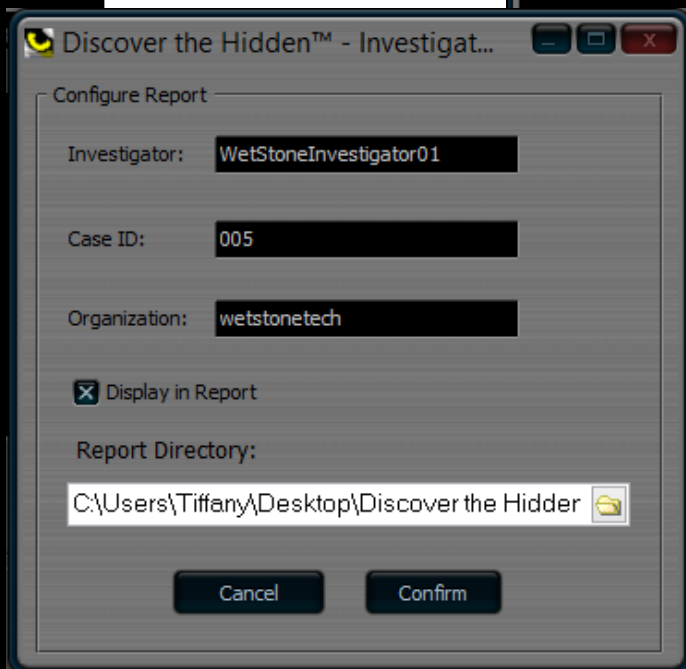

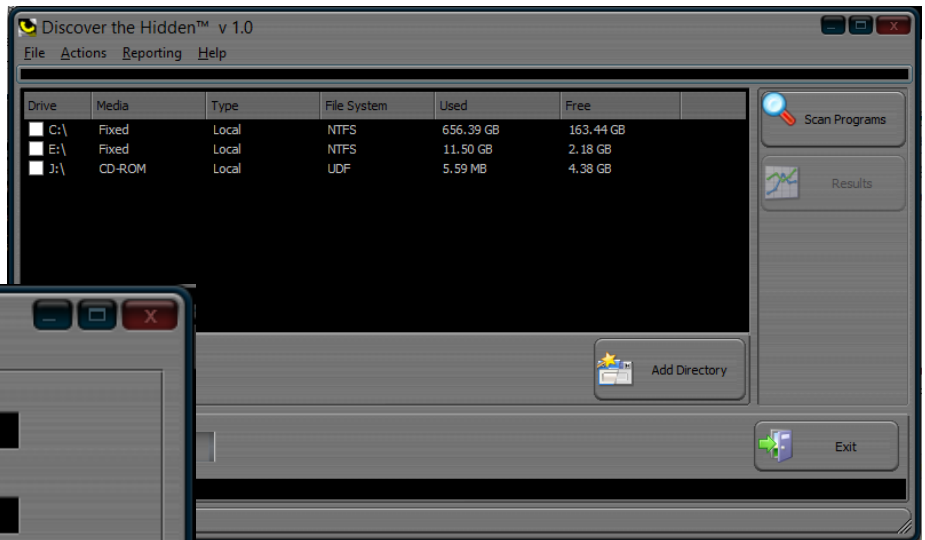

- **1GB USB Key:**
The Discover the Hidden software comes on a 1GB metal key-shaped USB memory drive. This unique device provides a portable investigation solution.

SYSTEM REQUIREMENTS:

In order to properly support Discover the Hidden, a computer system must meet or exceed the following minimum requirements:

- Microsoft Windows® 2000, XP, VISTA, 7, 8, 8.1, 10
- Microsoft Windows® Server 2003, 2008, 2012, 2016
- 1 GB RAM
- Pentium® 1 GHz processor or better
